MP3 Player with USB & SD Card input

Product Overview

Remote Control in real size
Dual mode Display for EZ navigation

PRODUCT DESCRIPTION

This tiny half rack size box will deliver MP3's from your favourite USB pen drives or your SD card. Just Plug and Play, and enjoy 10 different editable Playlist of your own. With the rack ears included in the box, this unit will fit perfectly into your PA rack, or can be the ideal management system for bars, pubs, or restaurant. Replacing our Traditional CD player, with a huge LCD Matrix Display, manage songs, edit them with Loops, & Reloops, can be made from the remote control as well.
